3rd International Conference on Ascites

12th - 13th April 2025

Venue: JW Marriott, Chandigarh

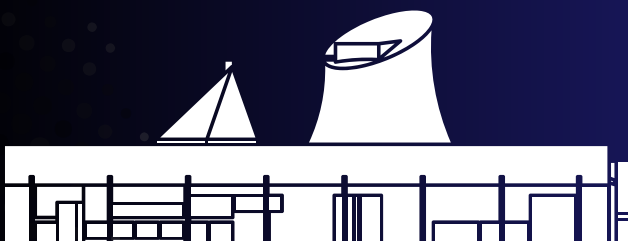

Dear Colleagues,

On behalf of the Organizing Committee, it is our great pleasure to invite you to the 3rd International Conference on Ascites, to be held on April 12-13, 2025, organized by the Punjab Institute of Liver and Biliary Sciences under the aegis of the International Club of Ascites, Indian National Association for Study of the Liver, and the Society for the Study of Liver Diseases.

Ascites remains a significant challenge in the daily practice of hepatologists and gastroenterologists worldwide. With substantial advancements in the diagnosis and treatment of ascites, its complications, and hepatorenal syndrome, there is a growing need to share insights and foster collaborations. Building on the resounding success of the 2nd International Conference on Ascites, this year's event aims to provide an enriching platform to enhance our understanding, improve patient care, stimulate research, and initiate impactful multicentric studies.

We warmly invite you to participate actively in this two-day conference and contribute to shaping the future of ascites management.
